

TSAC PROGRAM SUMMARY: FY 2000-01

Air Pollution Control District

Amount Allocated: \$85,000

Purpose: The TSAC funding to the Air Pollution Control District (APCD) was used to hire an inspector in the northern part of Santa Barbara County. The inspector provides services to the community in complaint response, surveillance of air pollution sources, public outreach, and enforcement of the APCD's air pollution rules.

Financial Summary:	TSAC Allocation:	\$85,000.00
	Total Billed to Date	<u>85,000.00</u>
	Allocation Balance Total	<u>\$_____0</u>

Recurring Performance Measure Summary: *(as of 4th quarter reporting)*

Performance Measure		Q1	Q2	Q3	Q4	Total
Respond to 80% of citizen complaints on air quality in northern SB County within 3 hours of receipt, and 90% of complaints within 24 hours of receipt. <i>Comment: During the 4th quarter, almost half of the complaints (5 of 11) came in after-hours, when no inspectors were able to respond in a timely fashion. Response times for complaints received during business hours were 80% (5 of 6) within 3 hours.</i>	Complaints received	23	33	32	11	99
	Response w/in 3 hrs	17 (74%)	27 (82%)	18 (56%)	7 (64%)	69 (70%)
	Response w/in 24 hrs	20 (87%)	32 (97%)	19 (59%)	7 (64%)	78 (79%)
Identify an estimated 10-20 sources of toxic air pollution through community surveillance in northern SB County.	Sources identified	0	3	2	1	6
Identify the number of violation notices issued and estimate the amount of associated pollution prevented in northern SB County. <i>Comment: Pollutants included hydrocarbon compounds (perchloroethylene, benzene, toluene, ethylbenzene) and particulates.</i>	# of violations	27	35	21	64	147
	Lbs. pollution prevented	2,781 (est)	850 (est)	2,573 (est)	926 (est)	7,130 (est)
