

TSAC PROGRAM SUMMARY: FY 2000-01 Hospital & Emergency Department Care

Amount Allocated: \$500,000

Purpose: The TSAC funding was used to offset the costs to local hospitals of uncompensated care for inpatient and outpatient care to the uninsured. Claims were submitted up to the allocated amount for each hospital.

Financial Summary:	TSAC Allocation:	\$500,000
	Total Billed to Date	500,000
	Allocation Balance Total	\$ <u> 0</u>

Recurring Performance Measure Summary: (as of 4th quarter reporting)

Performance Measure	Q1	Q2	Q3	Q4	Total
Provide an estimated 450 patient days using Medi-Cal per diem rates for hospital inpatient care for adults and children who are uninsured and are not eligible for publicly-funded programs .	34	164	196	108	502
Track tobacco-related ICD-9 and/or DRG codes to determine the amount of tobacco-related illness requiring hospitalization for patients with no health care coverage. <i><u>Comment:</u> The available diagnostic data did not permit identification of tobacco related illnesses. A total of 72 ICD-9 codes were collected from claims received for hospital care and were broken down into the categories below.</i>	N/A	N/A	N/A	N/A	N/A
